

Web3 | Eco | Basic | Income

powered by Mirai Labs & Save The Future

A full-page background image featuring a vibrant green aurora borealis (northern lights) dancing across a dark, star-filled night sky. Below the lights, a range of dark, jagged mountains stretches across the horizon. In the foreground, a calm body of water reflects the dark sky and the faint glow of the aurora. The overall scene is serene and majestic, with a focus on natural beauty and environmental themes.

Product

The environment-friendly loyalty program
made for Web3 users and companies.

1. Join

The user purchases a time-based NFT in BUSD or other currencies on nala.savethefuture.finance/webi

The NFT certifies the user role, his/her Web3 loyalty level & the value that he/she aims at adding to the Web3 world.

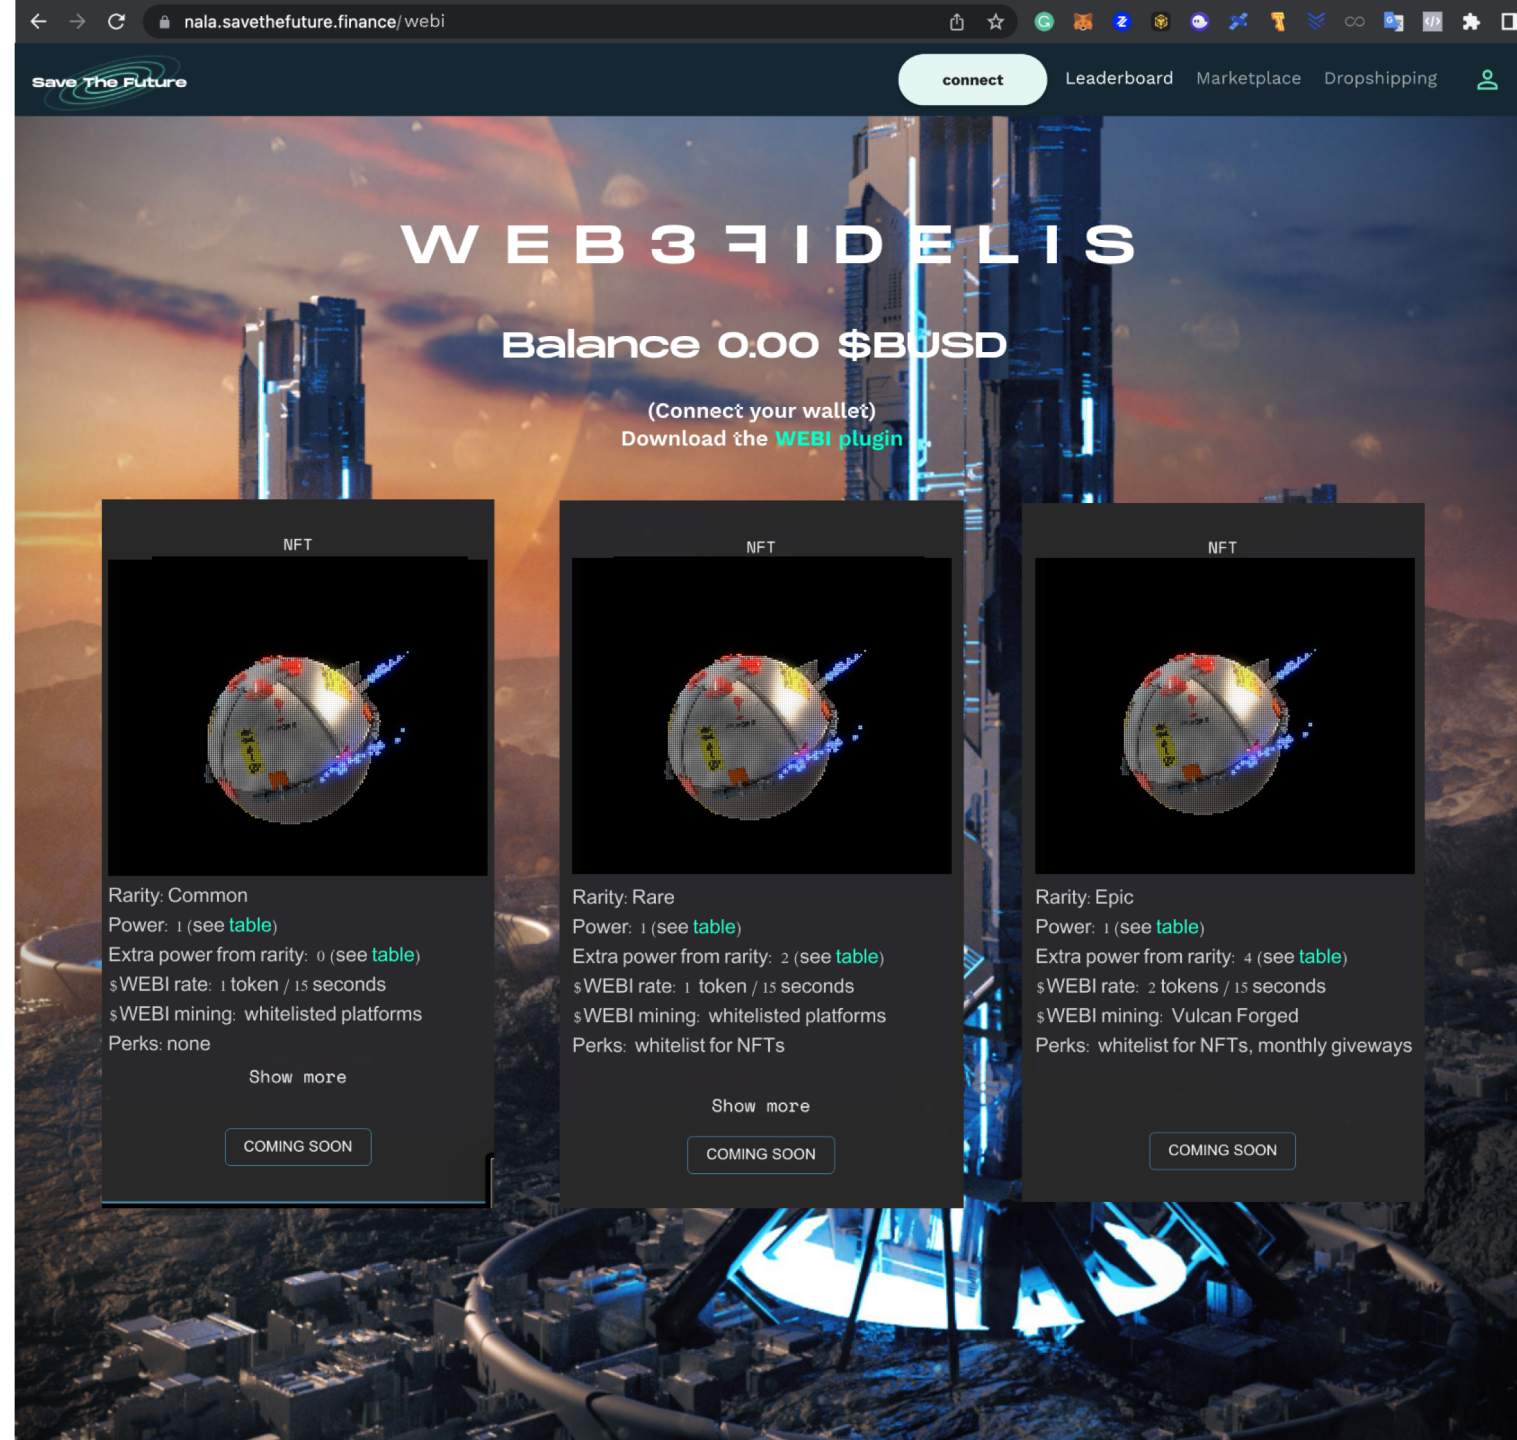

The NFT is also a membership including:

- whitelists to limited 3rd parties NFTs collections purchasable with \$WEBI from the top 100 Opensea collections or new launches.
- monthly giveaways & meta experiences

Four rarities: 1. Common 2. Rare 3. Epic 4. Special (promoted by a platform)

Following the first 10.000 NFT drops, attributes and levels will be introduced.

Max NFTs per wallet: 5

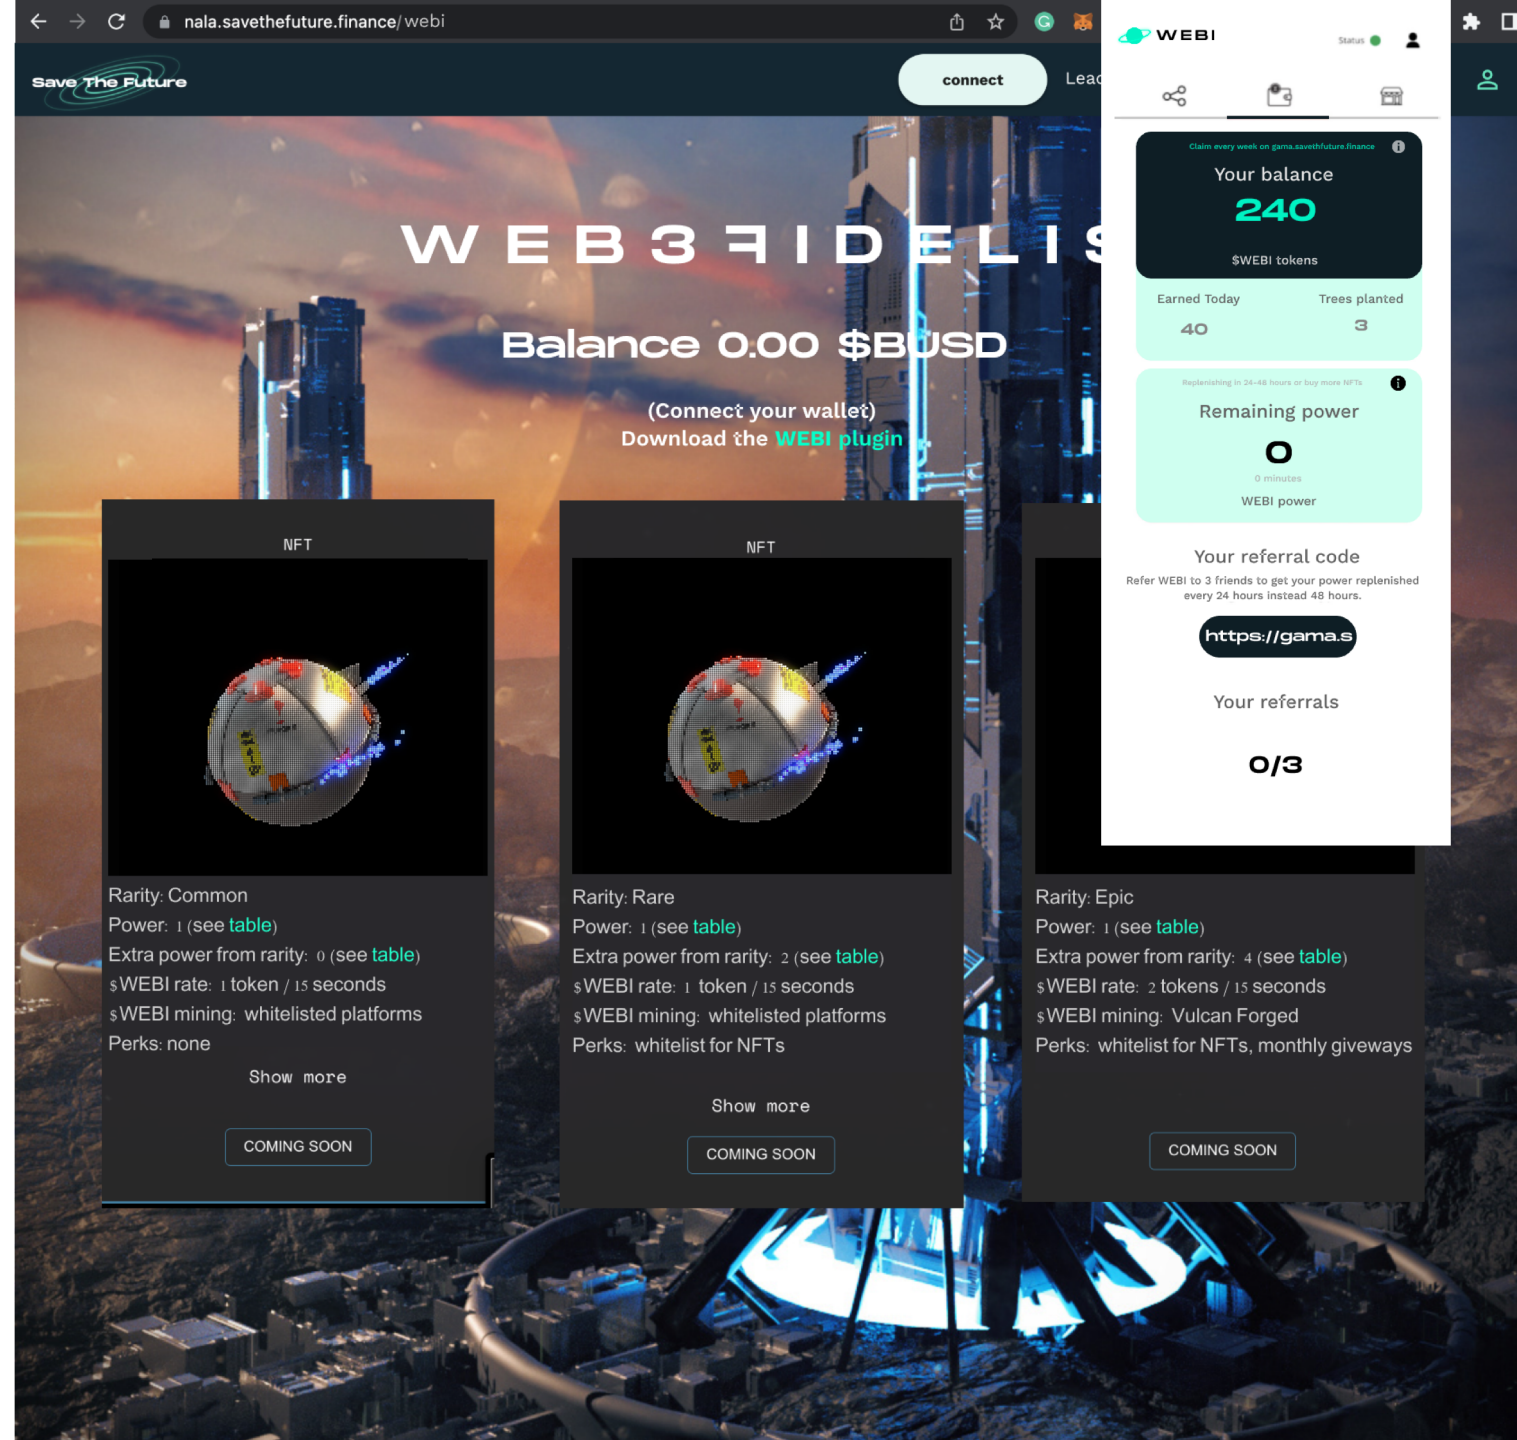

2. Download / Activate

The user downloads the chrome extension and completes the signup by connecting the wallet on gama.savethefuture.finance

The user needs to signup with the same wallet used to purchase the NFTs.

The extension will track anonymously his/her Web3 active engagement on any whitelisted green-friendly web3 platform (metaverse, game, exchange, etc.), starting from the moment the wallet is connected.

The private identity of the user remains intact.

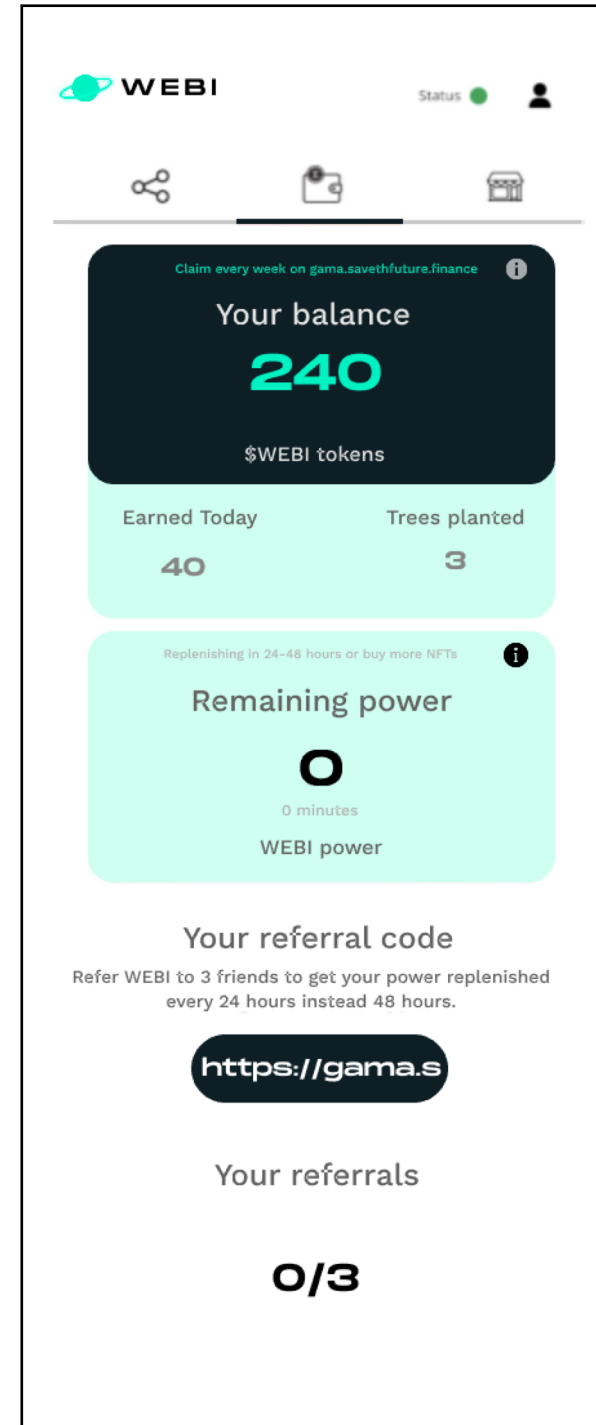

3. Power up

If the user owns 1 NFT, he/she starts with 1 POWER (energy).

The user can increase the max power by owning more NFTs (max 5 per wallet)

Additional power is given based on the type of NFT rarity.

4. Engage 2 earn (and plant trees)

Every 15 seconds spent on a whitelisted green-friendly web3 platform (tracked by the chrome extension), the user loses 0,025 POWER, earn 1 WEBI token and plant 0,0125 trees (estimation).

However, a platform (partner) can promote a higher token mining distribution to capture more users.

Levels will allow users to choose between earning \$WEBI or other tokens.

The power replenishes every 48 hours to reach its power cap again. If the user has 3 referrals, the power replenishes in 24.

Status 

Web3 platforms (whitelisted)

1. Get a time-based NFT, unlock WEBI power & connect your Web3 wallet
2. Engage with the platforms listed below
3. Mine \$WEBI & plant trees every 15 seconds
4. Redeem crazy NFTs with \$WEBI or trade it
5. Wait for your power to be replenished or get more NFTs to keep mining

Engage 2 earn
1 \$WEBI every 15 seconds
+ \$PYR airdrops

Engage 2 earn

Decentraland

Engage 2 earn

maiar

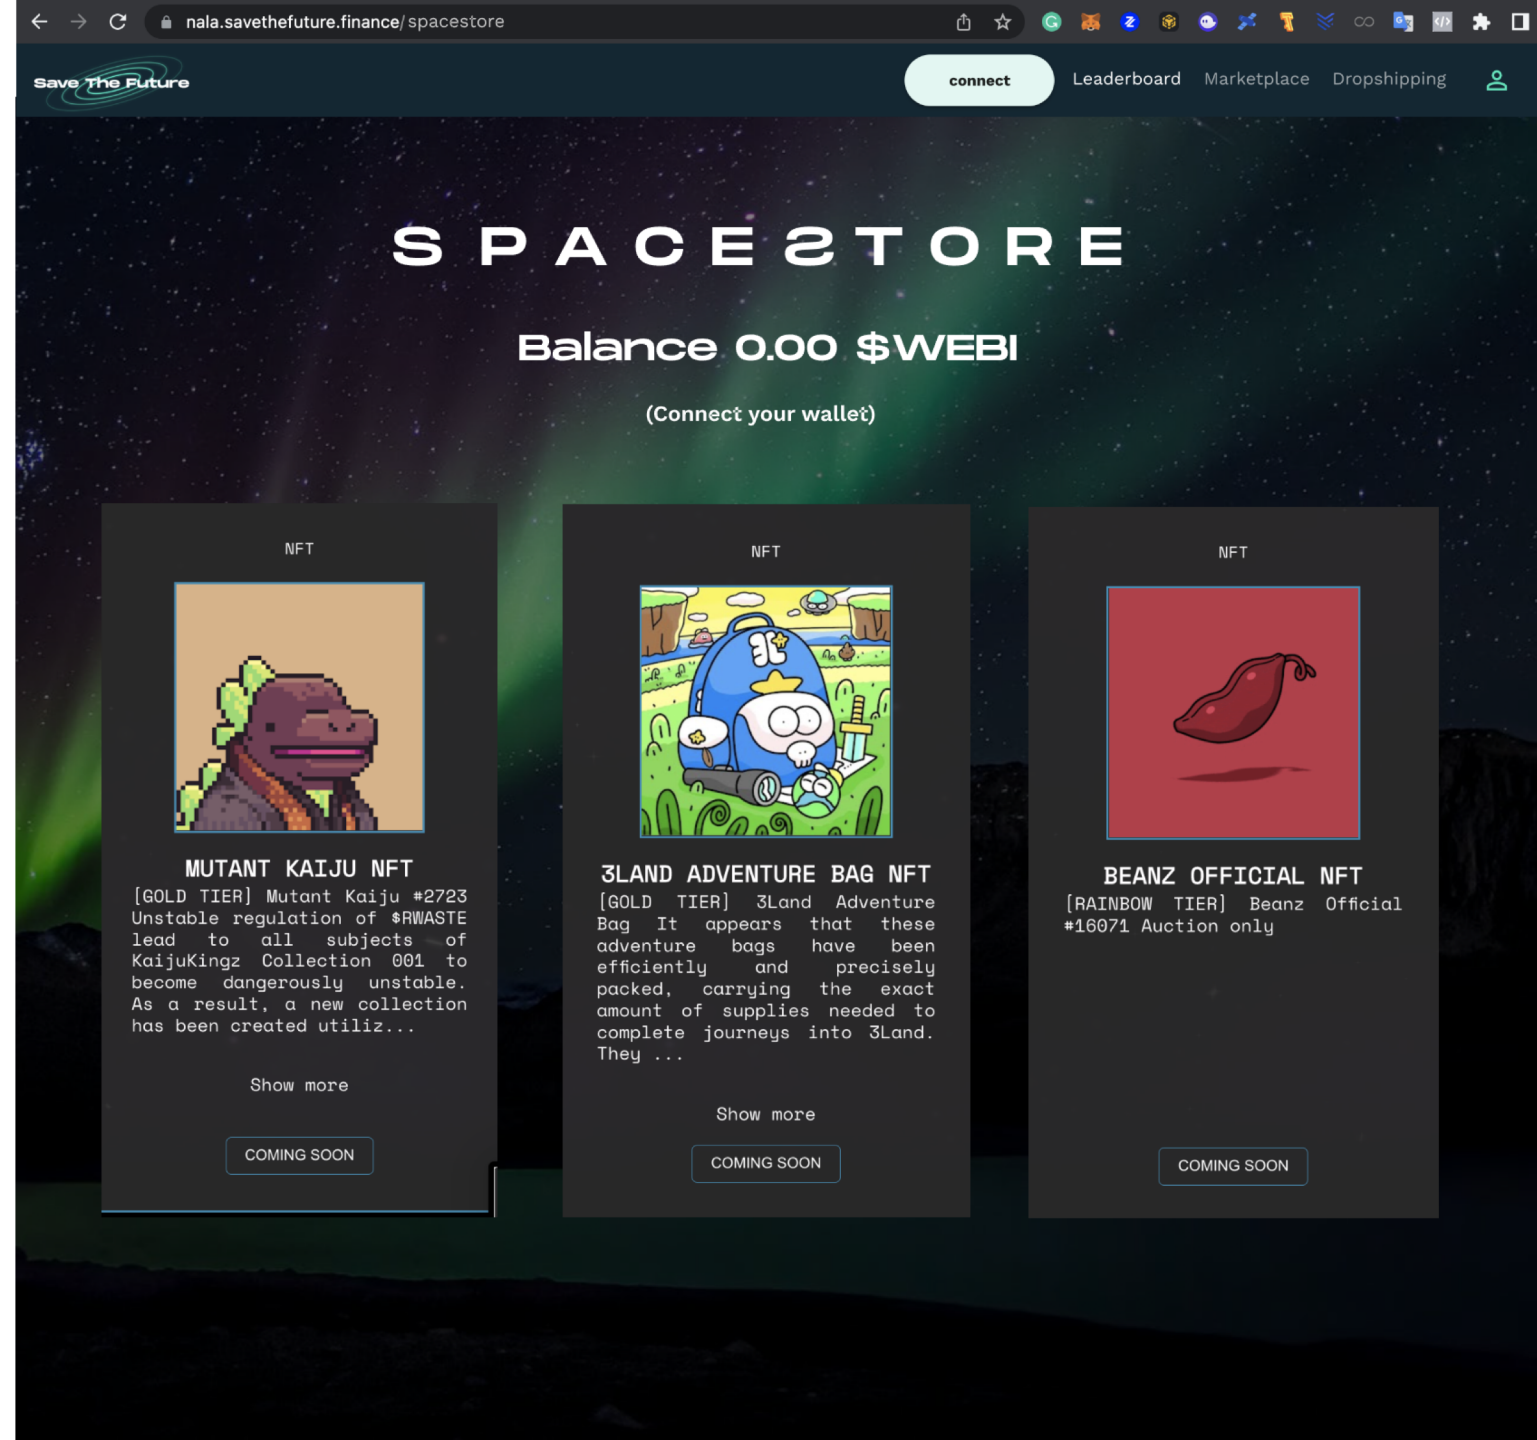

Engage 2 earn

[WEBI Support](#)

5. Claim/Redeem

\$WEBI tokens can be claimed on nala.savethefuture.finance/spacestore once per week and can be traded for \$BUSD, burned to mint Locked NALA (LKNALA), burned to upgrade NFTs' attributes and burned to redeem crazy NFTs (third parties collectibles we buy on the market, gift cards from selected brands partner, proprietary rewards, etc.) on the limited store of nala.savethefuture.finance/spacestore

The user can climb the leaderboard ranking on gama.savethefuture.finance. The more NFTs redeemed, the higher the ranking, the higher the monthly rewards.

A full-page background image featuring a vibrant green aurora borealis (northern lights) dancing across a dark, star-filled night sky. Below the lights, a range of dark, rugged mountains stretches across the horizon. In the foreground, a calm body of water reflects the green glow of the aurora and the dark silhouettes of the mountains. The overall scene is serene and majestic, with a focus on natural beauty and celestial phenomena.

Tokenomics

GameFi and Sustainability

1. Table (Season 1)

[illegible]

2. Supply / Price

https://docs.google.com/spreadsheets/d/1sjtik3qQ3dft1QSWsXGTTtMhGfX5a7Z_/edit?usp=sharing&oid=103085555311536924790&rtpof=true&sd=true

NFTS	UTILITY	TOTAL	MINT PRICE \$BUSD	REQUIREMENTS	NOTES
COMMON	COLLECTIBLE	6000	50		
RARE	WHITELISTING	3000	100		Attributes/traits 2nd drops
EPIC	WHITELISTING + MONTHLY C	1000	150	Hold 50\$ of \$NALA (MiraiD)	Attributes/traits 2nd drops
SPECIFIC PER PLATFORM	SPECIFIC PER PLATFORM	SPECIFIC PER PLATFORM	SPECIFIC PER PLATFORM	Hold token platform	Example: Vulcan Forged

	MONTH 1	MONTH 3	MONTH 6	MONTH 9	MONTH 12
WEBI TOKENS / MINUTE	4,00	3,75	3,25	2,75	2
	(1 token / 15 seconds)				
MINUTE / POWER	10	8	6	4	2
	(0,025 power / 15 seconds)				
MAX WEBI TOKENS / DAY	3.806.667	3.426.000	2.740.800	1.918.560	959.280

Once levels are introduced: levels will allow users to choose between earning \$WEBI or other tokens.

POWER REPLENISHMENT RATE	IF 0 REFERRAL	IF 1 REFERRALS	IF 2 REFERRALS	IF 3 REFERRALS
HOURS (all in one)	48	40	32	24

Once hashrate/skills (hashpower) are introduced: the higher the NFT skill value, the faster the power replenishment rate and as a consequence the higher the reward frequency. The higher the hashrate, they higher the power, the higher the number of earnable tokens

TOKENS	
INITIAL NFT SUPPLY (THEN 10 DROPS AT 80% OF THE MARKET VALUE IN LINE WITH DEMAND + INSERT TRAITS & ATTRIBUTES)	10.000
TOTAL WEBI TOKENS SUPPLY	3.000.000.000
SYMBOL	\$WEBI (Mirai Light)
INFLATION RATE WEBI TOKENS AFTER 6 YEARS	4,67%
LOCKUPS	1 week

A full-page background image featuring a vibrant green aurora borealis (northern lights) dancing across a dark, star-filled night sky. Below the sky, a range of dark, rugged mountains is silhouetted against the glowing light. In the foreground, a calm body of water reflects the green hues of the aurora and the dark shapes of the mountains. The overall scene is serene and majestic, with a focus on natural beauty and environmental themes.

Partners

The new way to create unprecedented bonds,
connect with communities, and act green

Advertise, Engage, Convert, Green-offset

1. Whitelisted entities bid/sponsor the extra tokens that WEBI protocol will airdrop to the users + any proprietary token:

- The entity buys \$WEBI on the market.
- The entity register/verifies its profile and whitelisted platform to boost.
- The entity sends \$WEBI (and its own token) to the reward pool address.
- Top bidding entities are shown first.

2. The entity entirely outsources the reward program for its current audience or future one, by leveraging the WEBI protocol.

- No integrations
- No airdrops
- No token inflation
- Trees are planted

3. Brands can also partner with WEBI by providing limited branded rewards on top that will be listed on the NALA space store or general marketplace (NFTs, gift cards, meta tickets, etc.), redeemable by the \$WEBI and time-based NFTs holders.
